Themes :

Adventure,
Submarine life,
Ecology, Solidarity,
Biodiversity, Coral
Reef, Fish

- The Young Fiction collection : Stand-alone novels or series, with or without enigmas, with coloured illustrations, a grid to fit every children's progress and develop their appetite for reading.

- A short but exciting adventure to read along with a glossary that gently raises the children's awareness about the coral reefs and submarine biodiversity protection.

Lucinda, Paulo, Méla, Greg and Toni are the members of the EFC club. These young adventurers will stop at nothing to protect their reef !

The Great Council is holding a meeting: the Reef is in danger! Paulo spies on the adults and tell the members of the Extraordinary Fins and Carapaces Club that an invasion of coral-eating crown-of-thorns starfish is on its way. Through the territory of moray eels and sharks, The EFC will face a thousand dangerous situations in order to save their habitat from destruction...

THE AUTHOR

Nadine DEBERTOLIS has been passionate about writing since she was a child. After working as a social worker for several years, she is now committed to writing full time. She loves to learn and travel in order to turn her discoveries into twinkly stories. Careful ! If she had a magic wand she would put the world upside down and grow gigantic flowers, it would rain sushi, and weird animals would be singing opera. So, don't give her one !

THE ILLUSTRATOR

Céline DEREGNAUCOURT draws animals, plants and magical stuff. After studying art in Belgium (ESA St Luc) she became an illustrator (press and publishing house) but also a cartoonist. During her free time, she likes to read, play video games and collect rocks.

VOLUME 2 : THE LOST WHALE CALF

Some harrowing cries are disturbing the reef. The EFC Club discovers Nino, a lost whale calf. He has been separated from his mum during an orca attack! The EFC members come together to find the humpback whale but they are chased by a group of scorpion fish, convinced that they will make a very nice dinner. But the EFC is more clever and decides to ally with surprisingly talented creatures: boxer crabs...

Identikit : The Red Lionfish

Release Date : August 2021

VOLUME 3 : POLLUTION ALERT!

Out of breath, ill and tired... The reef inhabitants are in bad shape! The EFC Club discovers the wreckage of a submarine from which a toxic liquid is leaking. And soon, another crisis arises: a sea current carrying plastic waste threatens to destroy everything... Will the old dugong's wise advice be enough for the little investigators to complete their mission in time?

Identikit : the Pollution of the Ocean

Partner Organisation : Wings of the Ocean

Release Date : March 2022

VOLUME 4 : THUNDERSTORMS AND CROCODILES

Help! An unknown monster is terrorizing the inhabitants of the reef. The EFC Club investigates into the mangrove, where the brave animals meet a strange fish that can walk in the open air. An it's only the beginning of their adventure: in addition to the large-toothed creature threatening them, a hurricane is approaching...

Identikit : The Saltwater Crocodile

Release Date : August 2022
