- **Explicit illustrations, funny and scientific explanations for children who want to know everything and parents who are at a loss what to answer!**

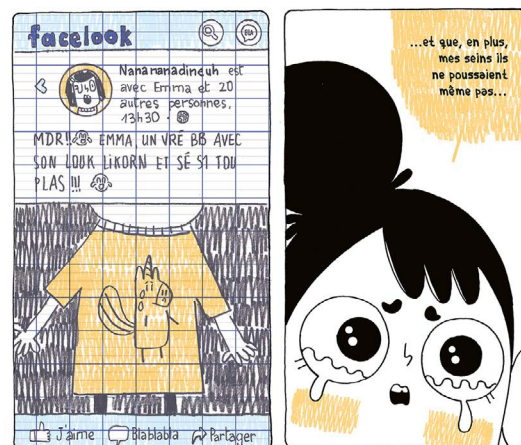

When he comes back from holiday, Jules is surprised to find Emma looking sad and dejected. She tells him Marcel made fun of her when she refused to kiss him. After comforting his sweetheart, Jules helps her find means to stop the bullying she has become a victim to..

AUTHOR AND ILLUSTRATOR

Monsieur Mouch had the idea to write *I Do Know How Babies Are Made!* thanks to his 9 years old daughter Mado who asked him a lot of questions about babies. That was the start of this book series and his attempt to answer children's questions. Before, he used to be an architect but decided to write stories instead.

Maria-Paz is a french illustrator. For *I Do Want to Know What Is Death Really About!*, she chose a limited range of colours (black, green, blue and yellow) and gave free rein to her pencil and spontaneity.
